Subject Index of Volume 97

(Na^+/K^+)ATPase
the inhibitory effect of aluminium on the (Na^+/K^+)ATPase activity of rat brain cortex synaptosomes, 143
3-Hydroxy-4-pyridinones
alkylaryl-amino derivatives of 3-hydroxy-4-pyridinones as aluminium chelating agents with potential clinical application, 161
Abundance
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Accelerator mass spectrometry (AMS)
^{26}Al incorporation into the brain of suckling rats through maternal milk, 155
Adenine
adenine–copper coordination polymer as an oxidative nucleozyme: implications for simple prebiotic catalytic units, 340
^{26}Al
^{26}Al incorporation into the brain of suckling rats through maternal milk, 155
Al chelators
alkylaryl-amino derivatives of 3-hydroxy-4-pyridinones as aluminium chelating agents with potential clinical application, 161
^{27}Al NMR
NMR spectroscopy of Group 13 metal ions: biologically relevant aspects, 315
Al phytotoxicity
chemical species of Al reacting with soil humic acids, 26
Al speciation
chemical species of Al reacting with soil humic acids, 26
Al tridecamer
chemical species of Al reacting with soil humic acids, 26
Al(III) complexes
the effects of Al(III) speciation on the activity of trypsin, 118
Al(III) speciation
determination of the total concentration and speciation of Al(III) in tea infusions, 79
Alkaline water
the effect of aluminium in Atlantic salmon (*Salmo salar*) with special emphasis on alkaline water, 89
Aluminium speciation
possible method of aluminium speciation in forest soils, 8
Aluminium toxicity
^{26}Al incorporation into the brain of suckling rats through maternal milk, 155
Aluminium
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
aluminium-induced impairment of Ca^{2+} modulatory action on GABA transport in brain cortex nerve terminals, 132
interactions of aluminium(III) with glycerolphosphates and glycerophosphorylcholine, 97
study of aluminium concentration and speciation of surface water in four catchments in the Limousin region (France), 16
the effect of aluminium in Atlantic salmon (*Salmo salar*) with special emphasis on alkaline water, 89
the inhibitory effect of aluminium on the (Na^+/K^+)ATPase activity of rat brain cortex synaptosomes, 143
the use of root growth and modelling data to investigate amelioration of aluminium toxicity by silicon in *Picea abies* seedlings, 52
Aluminum metabolism
aluminum speciation studies in biological fluids. Part. 9. A quantitative investigation of aluminum(III)-glutamate complex equilibria and their potential implications for aluminum metabolism and toxicity, 104
Aluminum speciation
aluminum speciation studies in biological fluids. Part. 9. A quantitative investigation of aluminum(III)-glutamate complex equilibria and their potential implications for aluminum metabolism and toxicity, 104
Aluminum tolerance
an intracellular mechanism of aluminum tolerance associated with high antioxidant status in cultured tobacco cells, 59
changes in some characteristics between the wild and Al-tolerant coffee (*Coffea arabica* L.) cell line, 69
Aluminum toxicity
aluminum speciation studies in biological fluids. Part. 9. A quantitative investigation of aluminum(III)-glutamate complex equilibria and their potential implications for aluminum metabolism and toxicity, 104
Aluminum–glutamate complexes
aluminum speciation studies in biological fluids. Part. 9. A quantitative investigation of aluminum(III)-glutamate complex equilibria and their potential implications for aluminum metabolism and toxicity, 104
Aluminum
aluminum speciation studies in biological fluids. Part. 9. A quantitative investigation of aluminum(III)-glutamate complex equilibria and their potential implications for aluminum metabolism and toxicity, 104
fluorescence characterization of the interaction of Al^{3+} and Pd^{2+} with Suwannee River fulvic acid in the absence and presence of the herbicide 2,4-dichlorophenoxyacetic acid, 32
fluorescent complex of pyoverdin with aluminum, 384
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Papers*), 151
recent progress in the research of external Al detoxification in higher plants: a minireview, 46
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Alzheimer's disease
^{26}Al incorporation into the brain of suckling rats through maternal milk, 155
Amino acid
preparation of platinum(II) complexes with L-serine using KI. X-ray crystal structure, HPLC and ^{195}Pt NMR spectra, 240
Amyotrophic lateral sclerosis and parkinsonism-dementia complex

Elsevier Inc.
doi:10.1016/S0162-0134(03)00392-1

(ALS/PDC)
^{26}Al incorporation into the brain of suckling rats through maternal milk, 155
Apoptosis
both calcium and ROS as common signals mediate Na_2SeO_3-induced apoptosis in SW480 human colonic carcinoma cells, 221
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Review*), 151
Arsonic acids
the reaction of allyl and benzylarsonic acids with thiols: mechanistic aspects and implications for dioxygen activation by trivalent arsenic compounds, 331
Ascorbate
synthesis, characterization, interaction with DNA and cytotoxicity of the new potential antitumour drug *cis*-K[Ru(eddp)Cl_2], 215
Ascorbic acid
an intracellular mechanism of aluminum tolerance associated with high antioxidant status in cultured tobacco cells, 59
Atlantic salmon
the effect of aluminium in Atlantic salmon (*Salmo salar*) with special emphasis on alkaline water, 89
Binding constant
studies of the interaction of potassium(I), calcium(II), magnesium(II), and copper(II) with cyclosporin A, 191
Biochemical evolution
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Biogeochemical cycle
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Biological fluids
aluminum speciation studies in biological fluids. Part. 9. A quantitative investigation of aluminum(III)-glutamate complex equilibria and their potential implications for aluminum metabolism and toxicity, 104
Biological systems
NMR spectroscopy of Group 13 metal ions: biologically relevant aspects, 315
Biosphere
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Biotin synthase
reactions of site-differentiated $[Fe_4S_4]^{2+,1+}$ clusters with sulfonium cations: reactivity analogues of biotin synthase and other members of the *S*-adenosylmethionine enzyme family, 287
Brain cortex
aluminium-induced impairment of Ca^{2+} modulatory action on GABA transport in brain cortex nerve terminals, 132
the inhibitory effect of aluminium on the (Na^+/K^+)ATPase activity of rat brain cortex synaptosomes, 143
CD spectroscopy
the effects of Al(III) speciation on the activity of trypsin, 118
Cadmium
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
Calcineurin
aluminium-induced impairment of Ca^{2+} modulatory action on GABA transport in brain cortex nerve terminals, 132
Calcium carbonate
interfacial molecular recognition between polysaccharides and calcium carbonate during crystallization, 377
Calcium homeostasis
brain-derived neurotrophic factor protects cultured rat hippocampal neurons from aluminum maltolate neurotoxicity, 124
Calcium imaging
brain-derived neurotrophic factor protects cultured rat hippocampal neurons from aluminum maltolate neurotoxicity, 124
Calcium
functional and structural study on chelator-induced suppression of S_2/S_1 FTIR spectrum in photosynthetic oxygen-evolving complex, 231
studies of the interaction of potassium(I), calcium(II), magnesium(II), and copper(II) with cyclosporin A, 191
Calf thymus DNA
synthesis, characterization, DNA-binding and cleavage studies of $[Ru(bpy)_2(actatp)]^{2+}$ and $[Ru(phen)_2(actatp)]^{2+}$ (actatp= acenaphthereno[1,2-*b*]-1,4,8,9-tetraazariphenylence), 207
Captopril
characterization of diorganotin(IV) complexes with captopril. The first crystallographically authenticated metal complex of this anti-hypertensive agent, 370
Carboplatin
the influence of methionine-containing peptides on the reaction of carboplatin with 5′-guanosine monophosphate: a comparison with cisplatin, 354
Carboxylate
functional and structural study on chelator-induced suppression of S_2/S_1 FTIR spectrum in photosynthetic oxygen-evolving complex, 231
Caspase-12
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Review*), 151
Caspase-3
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Review*), 151
Catalysis
adenine–copper coordination polymer as an oxidative nucleozyme: implications for simple prebiotic catalytic units, 340
Ca^{2+}/CaM signalling
aluminium-induced impairment of Ca^{2+} modulatory action on GABA transport in brain cortex nerve terminals, 132
Chelation therapy
alkylaryl-amino derivatives of 3-hydroxy-4-pyridinones as aluminium chelating agents with potential clinical application, 161
Chelator
functional and structural study on chelator-induced suppression of S_2/S_1 FTIR spectrum in photosynthetic oxygen-evolving complex, 231
Chelex 100
determination of the total concentration and speciation of Al(III) in tea infusions, 79
Chrysin
synthesis, characterization and DNA-binding properties of La(III) complex of chrysin, 258
Circular dichroism
modeling of copper(II) sites in proteins based on histidyl and glycyl residues, 299
studies of the interaction of potassium(I), calcium(II), magnesium(II), and copper(II) with cyclosporin A, 191
synthesis, characterization, interaction with DNA and cytotoxicity of the new potential antitumour drug *cis*-K[Ru(eddp)Cl_2], 215
Cisplatin
the influence of methionine-containing peptides on the reaction of carboplatin with 5′-guanosine monophosphate: a comparison with cisplatin, 354
Citrate
kinetic identification of a mitochondrial zinc uptake transport process in prostate cells, 199
Coffee cells
changes in some characteristics between the wild and Al-tolerant coffee (*Coffea arabica* L.) cell line, 69
Complexes
interactions of aluminium(III) with glycerolphosphates and glycerophosphorylcholine, 97
non-covalent and coordination interactions in Cu(II) systems with

uridine, uridine 5′-monophosphate and triamine or tetramine as biogenic amine analogues in aqueous solutions, 179
Conformational dynamics
examining the mechanism of stimulation of cytochrome P450 by cytochrome b_5: the effect of cytochrome b_5 on the interaction between cytochrome P450 2B4 and P450 reductase, 265
new perspectives on the conformational equilibrium regulating multi-phasic reduction of cytochrome P450 2B4 by cytochrome P450 reductase, 276
Copper(II) complexes
modeling of copper(II) sites in proteins based on histidyl and glycyl residues, 299
Copper(II)
non-covalent and coordination interactions in Cu(II) systems with uridine, uridine 5′-monophosphate and triamine or tetramine as biogenic amine analogues in aqueous solutions, 179
Copper
adenine–copper coordination polymer as an oxidative nucleozyme: implications for simple prebiotic catalytic units, 340
studies of the interaction of potassium(I), calcium(II), magnesium(II), and copper(II) with cyclosporin A, 191
β-Cyclodextrin
interfacial molecular recognition between polysaccharides and calcium carbonate during crystallization, 377
Cyclosporin A
studies of the interaction of potassium(I), calcium(II), magnesium(II), and copper(II) with cyclosporin A, 191
Cytochrome P450
examining the mechanism of stimulation of cytochrome P450 by cytochrome b_5: the effect of cytochrome b_5 on the interaction between cytochrome P450 2B4 and P450 reductase, 265
new perspectives on the conformational equilibrium regulating multi-phasic reduction of cytochrome P450 2B4 by cytochrome P450 reductase, 276
Cytochrome b_5
examining the mechanism of stimulation of cytochrome P450 by cytochrome b_5: the effect of cytochrome b_5 on the interaction between cytochrome P450 2B4 and P450 reductase, 265
Cytotoxicity
synthesis, characterization, interaction with DNA and cytotoxicity of the new potential antitumour drug *cis*-K[Ru(eddp)Cl_2], 215
DNA binding
synthesis, characterization and DNA-binding properties of La(III) complex of chrysin, 258
the influence of methionine-containing peptides on the reaction of carboplatin with 5′-guanosine monophosphate: a comparison with cisplatin, 354
DNA
synthesis, characterization, DNA binding study and biological activity against *Leishmania mexicana* of [Cu(dppz)$_2$]BF_4, 364
Dichlorophenoxyacetic acids
fluorescence characterization of the interaction of Al^{3+} and Pd^{2+} with Suwannee River fulvic acid in the absence and presence of the herbicide 2,4-dichlorophenoxyacetic acid, 32
Diorganotin(IV) complexes
characterization of diorganotin(IV) complexes with captopril. The first crystallographically authenticated metal complex of this anti-hypertensive agent, 370
EPR spectroscopy
modeling of copper(II) sites in proteins based on histidyl and glycyl residues, 299
Electrophoresis
synthesis, characterization, interaction with DNA and cytotoxicity of the new potential antitumour drug *cis*-K[Ru(eddp)Cl_2], 215
Endoplasmic reticulum
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Review*), 151
Environmental sample
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Enzyme inhibition
the effects of Al(III) speciation on the activity of trypsin, 118
Enzyme inhibitor
iminodiacetyl-hydroxamate derivatives as metalloproteinase inhibitors: equilibrium complexation studies with Cu(II), Zn(II) and Ni(II), 345
Enzymes
toxic and biochemical effects of zinc in Caco-2 cells, 324
Eriochrome cyanine R
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Erythrocyte membrane
effects of lead on the human erythrocyte membrane and molecular models, 308
Essential elements
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Extraction
possible method of aluminium speciation in forest soils, 8
FTIR
functional and structural study on chelator-induced suppression of S_2/S_1 FTIR spectrum in photosynthetic oxygen-evolving complex, 231
Fluorescence
fluorescent complex of pyoverdin with aluminum, 384
Forest soils
possible method of aluminium speciation in forest soils, 8
Forest
study of aluminium concentration and speciation of surface water in four catchments in the Limousin region (France), 16
Fulvic acid
fluorescence characterization of the interaction of Al^{3+} and Pd^{2+} with Suwannee River fulvic acid in the absence and presence of the herbicide 2,4-dichlorophenoxyacetic acid, 32
GABA
aluminium-induced impairment of Ca^{2+} modulatory action on GABA transport in brain cortex nerve terminals, 132
Gadd 153
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Review*), 151
Gallium-67
alkylaryl-amino derivatives of 3-hydroxy-4-pyridinones as aluminium chelating agents with potential clinical application, 161
Glutathione
an intracellular mechanism of aluminum tolerance associated with high antioxidant status in cultured tobacco cells, 59
Glycerolphosphates
interactions of aluminium(III) with glycerolphosphates and glycerophosphorylcholine, 97
Glycerolphosphorylcholine
interactions of aluminium(III) with glycerolphosphates and glycerophosphorylcholine, 97
Ground waters
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Group 13 elements
NMR spectroscopy of Group 13 metal ions: biologically relevant aspects, 315
High performance liquid chromatography
possible method of aluminium speciation in forest soils, 8
Histidine-containing tetrapeptides
modeling of copper(II) sites in proteins based on histidyl and glycyl residues, 299

Humic acids
chemical species of Al reacting with soil humic acids, 26
Humic substances
fluorescence characterization of the interaction of Al^{3+} and Pd^{2+} with Suwannee River fulvic acid in the absence and presence of the herbicide 2,4-dichlorophenoxyacetic acid, 32
Hydroxamate
iminodiacetyl-hydroxamate derivatives as metalloproteinase inhibitors: equilibrium complexation studies with Cu(II), Zn(II) and Ni(II), 345
Hydroxypyridinones
alkylaryl-amino derivatives of 3-hydroxy-4-pyridinones as aluminium chelating agents with potential clinical application, 161
Iminodiacetic acid
iminodiacetyl-hydroxamate derivatives as metalloproteinase inhibitors: equilibrium complexation studies with Cu(II), Zn(II) and Ni(II), 345
Intercalation
synthesis, characterization, DNA binding study and biological activity against *Leishmania mexicana* of $[Cu(dppz)_2]BF_4$, 364
Intercalative mode
synthesis, characterization, DNA-binding and cleavage studies of $[Ru(bpy)_2(actatp)]^{2+}$ and $[Ru(phen)_2(actatp)]^{2+}$ (actatp= acenaphthereno[1,2-*b*]-1,4,8,9-tetraazariphenylence), 207
Interfacial molecular recognition
interfacial molecular recognition between polysaccharides and calcium carbonate during crystallization, 377
Intestine
toxic and biochemical effects of zinc in Caco-2 cells, 324
Iron mobilization
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
Iron–sulfur clusters
reactions of site-differentiated $[Fe_4S_4]^{2+,1+}$ clusters with sulfonium cations: reactivity analogues of biotin synthase and other members of the *S*-adenosylmethionine enzyme family, 287
Keggin Al_{13} polymer
chemical species of Al reacting with soil humic acids, 26
La(III) complex
synthesis, characterization and DNA-binding properties of La(III) complex of chrysin, 258
Lead ions
effects of lead on the human erythrocyte membrane and molecular models, 308
Leishmania mexicana
synthesis, characterization, DNA binding study and biological activity against *Leishmania mexicana* of $[Cu(dppz)_2]BF_4$, 364
Lipid peroxidation
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
Liquid-state ^{27}Al-NMR
chemical species of Al reacting with soil humic acids, 26
Lithium
intracellular mechanisms underlying aluminum-induced apoptosis in rabbit brain (*Focused Review*), 151
Lithosphere
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Liver cells
kinetic identification of a mitochondrial zinc uptake transport process in prostate cells, 199
Liver mitochondria
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
MRI
NMR spectroscopy of Group 13 metal ions: biologically relevant aspects, 315
Macrocyclic complexes
NMR spectroscopy of Group 13 metal ions: biologically relevant aspects, 315
Matrix metalloproteinases
iminodiacetyl-hydroxamate derivatives as metalloproteinase inhibitors: equilibrium complexation studies with Cu(II), Zn(II) and Ni(II), 345
Mitochondrial ATP levels
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
Mitochondrial permeability transition
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
Mitochondrial transport
kinetic identification of a mitochondrial zinc uptake transport process in prostate cells, 199
Neurotrophin
brain-derived neurotrophic factor protects cultured rat hippocampal neurons from aluminum maltolate neurotoxicity, 124
Ni(II), Cu(II) and Zn(II) complexes
iminodiacetyl-hydroxamate derivatives as metalloproteinase inhibitors: equilibrium complexation studies with Cu(II), Zn(II) and Ni(II), 345
Non-covalent interaction
non-covalent and coordination interactions in Cu(II) systems with uridine, uridine 5′-monophosphate and triamine or tetramine as biogenic amine analogues in aqueous solutions, 179
Norway spruce
the use of root growth and modelling data to investigate amelioration of aluminium toxicity by silicon in *Picea abies* seedlings, 52
Nucleophilic and electrophilic allylic rearrangements
the reaction of allyl and benzylarsonic acids with thiols: mechanistic aspects and implications for dioxygen activation by trivalent arsenic compounds, 331
Nucleotides
the influence of methionine-containing peptides on the reaction of carboplatin with 5′-guanosine monophosphate: a comparison with cisplatin, 354
Organic acid anion
recent progress in the research of external Al detoxification in higher plants: a minireview, 46
Organic matter
study of aluminium concentration and speciation of surface water in four catchments in the Limousin region (France), 16
Oxidative stress
an intracellular mechanism of aluminum tolerance associated with high antioxidant status in cultured tobacco cells, 59
Oxygen evolution
functional and structural study on chelator-induced suppression of S_2/S_1 FTIR spectrum in photosynthetic oxygen-evolving complex, 231
P450 reductase
examining the mechanism of stimulation of cytochrome P450 by cytochrome b_5: the effect of cytochrome b_5 on the interaction between cytochrome P450 2B4 and P450 reductase, 265
Palladium
fluorescence characterization of the interaction of Al^{3+} and Pd^{2+} with Suwannee River fulvic acid in the absence and presence of the herbicide 2,4-dichlorophenoxyacetic acid, 32
Peptides
the influence of methionine-containing peptides on the reaction of carboplatin with 5′-guanosine monophosphate: a comparison with cisplatin, 354
Phospholipid bilayer
effects of lead on the human erythrocyte membrane and molecular models, 308

Photocleavage
synthesis, characterization, DNA-binding and cleavage studies of $[Ru(bpy)_2(actatp)]^{2+}$ and $[Ru(phen)_2(actatp)]^{2+}$ (actatp= acenaphthereno[1,2-*b*]-1,4,8,9-tetraazariphenylence), 207
Picea abies
the use of root growth and modelling data to investigate amelioration of aluminium toxicity by silicon in *Picea abies* seedlings, 52
Plasmid DNA
adenine–copper coordination polymer as an oxidative nucleozyme: implications for simple prebiotic catalytic units, 340
Platinum(II)
preparation of platinum(II) complexes with L-serine using KI. X-ray crystal structure, HPLC and ^{195}Pt NMR spectra, 240
Polyamine
non-covalent and coordination interactions in Cu(II) systems with uridine, uridine 5′-monophosphate and triamine or tetramine as biogenic amine analogues in aqueous solutions, 179
Polypyridl ligand
synthesis, characterization, DNA-binding and cleavage studies of $[Ru(bpy)_2(actatp)]^{2+}$ and $[Ru(phen)_2(actatp)]^{2+}$ (actatp= acenaphthereno[1,2-*b*]-1,4,8,9-tetraazariphenylence), 207
Polypyridyl copper complex
synthesis, characterization, DNA binding study and biological activity against *Leishmania mexicana* of $[Cu(dppz)_2]BF_4$, 364
Polysaccharides
interfacial molecular recognition between polysaccharides and calcium carbonate during crystallization, 377
Prebiotic
adenine–copper coordination polymer as an oxidative nucleozyme: implications for simple prebiotic catalytic units, 340
Prostate cells
kinetic identification of a mitochondrial zinc uptake transport process in prostate cells, 199
Protein models
modeling of copper(II) sites in proteins based on histidyl and glycyl residues, 299
Protein thiols
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
^{195}Pt NMR
preparation of platinum(II) complexes with L-serine using KI. X-ray crystal structure, HPLC and ^{195}Pt NMR spectra, 240
Pyoverdin
fluorescent complex of pyoverdin with aluminum, 384
Quantitative trait loci
recent progress in the research of external Al detoxification in higher plants: a minireview, 46
Rat
the inhibitory effect of aluminium on the (Na^+/K^+)ATPase activity of rat brain cortex synaptosomes, 143
Reactive oxygen species
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
both calcium and ROS as common signals mediate Na_2SeO_3-induced apoptosis in SW480 human colonic carcinoma cells, 221
the reaction of allyl and benzylarsonic acids with thiols: mechanistic aspects and implications for dioxygen activation by trivalent arsenic compounds, 331
Reductase interactions
new perspectives on the conformational equilibrium regulating multi-phasic reduction of cytochrome P450 2B4 by cytochrome P450 reductase, 276
Reductive cleavage
reactions of site-differentiated $[Fe_4S_4]^{2+,1+}$ clusters with sulfonium cations: reactivity analogues of biotin synthase and other members of the *S*-adenosylmethionine enzyme family, 287
Resistance
recent progress in the research of external Al detoxification in higher plants: a minireview, 46
Ru(II) complexes
synthesis, characterization, DNA-binding and cleavage studies of $[Ru(bpy)_2(actatp)]^{2+}$ and $[Ru(phen)_2(actatp)]^{2+}$ (actatp= acenaphthereno[1,2-*b*]-1,4,8,9-tetraazariphenylence), 207
Runoff water
study of aluminium concentration and speciation of surface water in four catchments in the Limousin region (France), 16
Ruthenium complexes
synthesis, characterization, interaction with DNA and cytotoxicity of the new potential antitumour drug *cis*-$K[Ru(eddp)Cl_2]$, 215
SW480 cells
both calcium and ROS as common signals mediate Na_2SeO_3-induced apoptosis in SW480 human colonic carcinoma cells, 221
Serine protease
the effects of Al(III) speciation on the activity of trypsin, 118
Siderophore
fluorescent complex of pyoverdin with aluminum, 384
Signal transduction
changes in some characteristics between the wild and Al-tolerant coffee (*Coffea arabica* L.) cell line, 69
Silicon
the use of root growth and modelling data to investigate amelioration of aluminium toxicity by silicon in *Picea abies* seedlings, 52
Soil acidification
possible method of aluminium speciation in forest soils, 8
Soil extracts
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Solid-phase extraction
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Solid-state MAS ^{27}Al-NMR
chemical species of Al reacting with soil humic acids, 26
Speciation modelling
the use of root growth and modelling data to investigate amelioration of aluminium toxicity by silicon in *Picea abies* seedlings, 52
Speciation on tea infusion
determination of the total concentration and speciation of Al(III) in tea infusions, 79
Spectrophotometry
solid phase extraction–spectrophotometric determination of dissolved aluminum in soil extracts and ground waters, 173
Sulfonium ions
reactions of site-differentiated $[Fe_4S_4]^{2+,1+}$ clusters with sulfonium cations: reactivity analogues of biotin synthase and other members of the *S*-adenosylmethionine enzyme family, 287
Synapse formation
brain-derived neurotrophic factor protects cultured rat hippocampal neurons from aluminum maltolate neurotoxicity, 124
Synaptosome
the inhibitory effect of aluminium on the (Na^+/K^+)ATPase activity of rat brain cortex synaptosomes, 143
Tea infusion
determination of the total concentration and speciation of Al(III) in tea infusions, 79
Thiols
the reaction of allyl and benzylarsonic acids with thiols: mechanistic aspects and implications for dioxygen activation by trivalent arsenic compounds, 331
Tobacco cells
an intracellular mechanism of aluminum tolerance associated with high antioxidant status in cultured tobacco cells, 59

Toxicity
the effect of aluminium in Atlantic salmon (*Salmo salar*) with special emphasis on alkaline water, 89
the use of root growth and modelling data to investigate amelioration of aluminium toxicity by silicon in *Picea abies* seedlings, 52
toxic and biochemical effects of zinc in Caco-2 cells, 324
Toxicology
a biogeochemical cycle for aluminium? (*Hypothesis Paper*), 1
Trace element
toxic and biochemical effects of zinc in Caco-2 cells, 324
Transgenic plant
recent progress in the research of external Al detoxification in higher plants: a minireview, 46
Trypsin
the effects of Al(III) speciation on the activity of trypsin, 118
Uncoupling
a proposed sequence of events for cadmium-induced mitochondrial impairment, 251
Uridine 5′-monophosphate
non-covalent and coordination interactions in Cu(II) systems with uridine, uridine 5′-monophosphate and triamine or tetramine as biogenic amine analogues in aqueous solutions, 179
Uridine
non-covalent and coordination interactions in Cu(II) systems with uridine, uridine 5′-monophosphate and triamine or tetramine as biogenic amine analogues in aqueous solutions, 179
Water quality
study of aluminium concentration and speciation of surface water in four catchments in the Limousin region (France), 16
X-ray crystal structure
preparation of platinum(II) complexes with L-serine using KI. X-ray crystal structure, HPLC and ^{195}Pt NMR spectra, 240
Zinc transport
kinetic identification of a mitochondrial zinc uptake transport process in prostate cells, 199
